GRANT SUBMISSIONS UNDER REVIEW:

07/2025 – 07/2028	NIH/NIDDK 1R01DK144303-01 Feasibility and Acceptability of an In-Home CHW Support Strategy for Culinary Medicine Classes Culinary Medicine (CM) classes are an evidence-based option for adults with chronic metabolic disease to overcome barriers related to dietary change; however, suboptimal engagement in these programs leaves a gap of knowledge about the effectiveness of CM for reducing weight and A1c in adults with chronic metabolic disease. We propose to optimize CM engagement with in-home Community Health Worker (CHW) support in preparation for a future, fully powered trial studying the impact of the CM+CHW support intervention on weight and A1c in adults with chronic metabolic illnesses. Role: Principal Investigator \$984,000
07/01/2025 – 06/30/2030	NIH/NIDDK NTX-FUTURE In response to PAR-23-248, we propose to establish North Texas (NTX)-FUTURE, a comprehensive, multi-institutional, interdisciplinary training program that will address these challenges. NTX-FUTURE will integrate trainees, preceptors, infrastructure, and resources from three institutions—the University of Texas Southwestern Medical Center(UTSW), the University of Texas at Dallas(UTD), and the University of Texas at Arlington(UTA) Role: Co-Investigator, Evaluation Lead (PI - Samir Parikh) \$8,546,888.
